

Thank you sew much!

York Scrubs is a community group that was formed in response to the global Covid-19 pandemic.

There was an unprecedented demand for vital personal protective equipment leaving local frontline clinicians without the scrubs and surgical gowns that were needed to protect themselves and their patients.

Over 400 volunteers rallied together and repaired 651 surgical gowns and made 2825 sets of scrubs.

Without your help and support during this difficult time we would not have been able to achieve this and our frontline clinicians are incredibly grateful for the love and kindness that has gone into every cut of the fabric, every stitch and every journey.

Inc Dot are proud to support the NHS and York Scrubs. www.inc-dot.com
